GB IE ZA AE

These products meet the requirements of the following Protective Clothing standards:
EN ISO 13688:2013;
EN 13034:2005 + A1:2009 (Type 6);
EN ISO 13982-1:2004 + A1:2010 (Type 5);
EN 1073-2:2002 (Class 1); ⚠ except EN 863 puncture resistance
They should be used to help protect the wearer against solid airborne particulates and certain limited liquid splashes only.

WARNINGS AND LIMITATIONS

⚠ **Particular attention should be given to warning statements where indicated.**

⚠ Warning

- Always be sure that the complete product is:
  - Suitable for the application;
  - Fitted correctly;
  - Worn during all periods of exposure;
  - Replaced when necessary.
- **Proper selection, training, use and appropriate maintenance are essential in order for the product to help protect the wearer.**
- **Failure to follow all instructions on the use of these personal protection products and/or failure to properly wear the complete product during all periods of exposure may adversely affect the wearer's health, lead to severe or life threatening illness or permanent disability.**
- For suitability and proper use follow local regulations, refer to all information supplied or contact a safety professional or 3M on 0870 60 800 60 (UK) or 1800 320 500 (Ireland).
- Before use, the wearer must be trained in use of the complete product in accordance with applicable Health and Safety standards/guidance.
- Never alter, modify or repair this device.
- Check product is undamaged before use.
- These products do not contain components made from natural rubber latex.

⚠ **Do not use around heat, flames, or sparks.**

- Do not use in explosive atmospheres.
- Do not use in oxygen-enriched atmospheres.
- The garment may not be suitable for protection against chemicals not listed in the Technical Specification.
- Does not protect against radiation.
- Before initial use, always check that the product is within the stated shelf life (use by date).

Garment should be fully fastened and cover underclothes.
For full protection: tape along length of storm flap; tape cuffs, ankles and hood to suitable, additional personal protective equipment.*
Regular rest periods and use of absorbent undergarments may reduce any heat stress caused by prolonged wearing.

MARKING AND SIZING

See Figure 1.
A - Limited protective performance against liquid chemicals (Type 6);
Protective performance against solid airborne particulates (Type 5);
B - Protective performance against radioactive particulate contamination (Class 1);

C - Size	H - No chlorination
D - Height	I - Do not iron
E - Chest	J - Do not dry clean
F - Single use	K - Do not tumble dry
G - Do not wash	L - Flammable

STORAGE AND TRANSPORTATION

Store in accordance with manufacturer's instructions, see packaging.

End of Shelf Life	Date of Manufacture
Temperature Range	Name and address of Manufacturer
Maximum Relative Humidity	Packaging not suitable for food contact.

Contaminated products should be removed with care and disposed of as hazardous waste in accordance with applicable regulations.
When transporting this product use original packaging.

TECHNICAL SPECIFICATION

Tests are performed under laboratory conditions that may not reflect the reality of use and do not account for factors such as excessive heat and mechanical wear.*
Whole suit tests conducted on coveralls worn with gloves, boots and full face mask with taping at wrists, ankles, hood/mask interface, down length and across bottom of storm-flap.*
Collared coveralls tested with 3M 446 hood.
* Contact 3M for additional information.
